Total No. of Questions : 09

B.Tech. (CE) (Sem.–6)

GEOSYNTHETIC ENGINEERING

Subject Code : PECE-602D-18

M.Code : 79397

Date of Examination : 05-01-2023

Time : 3 Hrs. **Max. Marks : 60**

INSTRUCTIONS TO CANDIDATES :

1. **SECTION-A is COMPULSORY consisting of TEN questions carrying TWO marks each.**
2. **SECTION-B contains FIVE questions carrying FIVE marks each and students have to attempt any FOUR questions.**
3. **SECTION-C contains THREE questions carrying TEN marks each and students have to attempt any TWO questions.**

SECTION-A

1. Write briefly/Fill in the blank :

a) Write application of geosynthetics in water resource.

b) Geotextiles are available in market in rolls up to what length.

c) Name any 2 tests of geosynthetics.

d) Geotextiles are available in the thickness varying from_____.

e) Write two basic similarities between geotextiles and geogrids.

f) Write any 2 major factors to be considered in the selection of a geosynthetic for field application.

g) Why natural fibres degrade.

h) Write applications of geosynthetics in Geotechnical Engineering for Ground Improvement.

i) Enumerate the potential uses of geotextiles in the Indian context,

j) Write a short note on DSF fabrics.

BR paper
exams preparatory

SECTION-B

2. List the various test methods developed for measuring the size of openings in geotextile.

3. Explain the historical applications of the reinforced soil.

4. Explain the bearing capacity improvement method with geogrid.

5. List the various processes by which (i) non-woven geosynthetics and (ii) geogrids are manufactured.

6. Describe creep and long term performance of geosynthetics.

SECTION-C

7. Explain physical-mechanical properties of geotextiles.

8. Explain installation technique of soil reinforcement.

9. Explain the following terms with their field application :

a) Geotextiles

b) Geogrids

c) Geonets.
